Preface

The Historical Records Survey, a federal project of the Works Progress Administration, was organized by authority of a presidential letter in 1936. Dr. Luther H. Evans was chosen as National Director. Until the middle of 1938, the Vermont project restricted its activities to the survey of public records. At that time, it was decided that public records work was sufficiently well advanced that new tasks could be undertaken, and work on manuscripts was begun.

This calendar has been compiled largely from the material gathered by James B. Wilbur, who spent a great portion of his time during eight years searching for Ira Allen material, both in America and abroad, purchasing where possible original manuscripts, otherwise obtaining photostat copies. The collection is housed in the Wilbur Library of the Fleming Museum of the University of Vermont in Burlington, and all of the documents, unless otherwise specified, are a part of this collection. A few documents, not covered by Mr. Wilbur, have been found and included in the calendar with a reference to their location.

The Ira Allen collection was chosen as the first to be calendared by the Survey in Vermont because of the completeness of the material collected and the importance of Ira Allen in the state and in the early history of the United States. He was born in 1751 and died in 1814. He was one of the largest landowners in New England and his business interests were extensive. He took an active part in the boundary dispute between Vermont and New York. He was one of the leaders who organized the independent

state of Vermont, which in 1791 became the fourteenth state of the Union. He was Vermont's first Secretary of State and later held the offices of State Treasurer and Surveyor General. The papers in this collection bespeak a man of great ability, integrity, and strength. From the collection which starts in 1772 and continues until his death, much can be learned of Ira Allen's life.

A large portion of the collection consists of correspondence with the following people: Madame Ager, who served him as interpreter while he was in France; Fulwar Skipwith, Consul General of the United States; Samuel Peters, clergyman; Dr. Isaac Moseley, an English friend; Rufus King, United States minister to Great Britain; Robert Slade, a lawyer employed by Allen; Jerusha Allen, his wife; Ethan and Levi Allen, his brothers; Heman Allen and John Finch, nephews; Joel Barlow and Mrs. Barlow, American friends of Ira Allen who lived in France.

The research for this volume was done by Miss Madeline Shelvey, Miss Beulah F. Griggs, and Mrs. Adelaide MacMinn of the Historical Records Survey in Vermont. The calendar was prepared in accordance with instructions received from the Washington office of the Survey where Mrs. Margaret Sherburne Eliot is Assistant Archivist in charge of the manuscript inventories.

The cooperation of Mrs. J. E. Donahue, librarian at the Wilbur Library, in the preparation of the material is sincerely appreciated. Her technical advice and assistance in identifying various individuals has materially improved the usefulness of the volume.

Publications of the Historical Records Survey in Vermont
include:

1. Inventory of the Town, Village and City Archives of Vermont, Towns of Grand Isle County, No. 7.
2. Inventory of the Town, Village and City Archives of Vermont, Town of Bolton, No. 4, Vol. 1.
3. Inventory of the Town, Village and City Archives of Vermont, Town of Waterville, No. 8, Vol. 9.
4. Inventory of the Church Archives of Vermont, Churches of Hinesburg, A Preliminary Publication.

A number of publications are in course of preparation; these include an index to early issues of the Burlington Free Press, a guide to the manuscript material of the Eugenics' survey of Vermont, located at the Fleming Museum in Burlington, a directory of Vermont churches, an inventory of the archives of the Episcopal churches in Vermont and several volumes of the Inventory of the Town, Village and City Archives of Vermont series.

Is apprehensive that General Allen will not return from England with his arms and cannon for some months; "it's a most cursed thing that he could be thus unjustly detained by the iron hand of power, contrary to the treaty or the law of nations. How will this wicked and diabolical detention set on the minds of the inhabitants of Vermont. I think it will raise their just resentment against this haughty nation and John A. Graham, who is, if his own account is to be credited, a spy upon his countrymen. Such is the opinion of most Americans here"; concerns Fraser

and Young's suit; proposes that if Lyon would notify them that Allen and he were in Europe indefinitely and offer 12s. 4d. on the pound, in settlement with Lyon's guarantee of payment, Thorn would give one half the profit, if Allen paid the judgment, and one third if Lyon had to pay it.

Samuel PETERS. To Stephen THORN.
"If the General [Ira Allen] supposes he shall gain honor by a publication he must depart from 1000 things in his manuscripts or be damned . . . half of his sentences are imperfect and as he chuses his own way why in the name of common sense does he torment you and me with four pages about nothing? It resembles the man who went around the copse expecting to find a bear and when he got round he did not find a bear. This last volume is duplicate upon duplicate, half of it is not legible by me - why did you not purify it and enable me to know the General's meaning . . . for if the General will print according to his own plan I wish never to see it . . . The duty on paper in England to print 300 of this book will pay for the printing of it in Boston, [Massachusetts]. I think the General should not print the history in England for 200 reasons his own egotism will damn the book".
